Greetings in the Name of Jesus:

Pray you are all well, safe and blessed.

In a world flooded with fear, noise and uncertainty, your love, prayers and support, is a grounded response in an unsteady world.

Because of you, the message of Jesus is not only spoken, it is being seen in action.

Yes, every crusade we have, besides worship and preaching is always supported by material help, home visits, etc., especially now that the school year is about to start, and as you know, in Mexico the poor are everywhere.

It is a shame that in a nation that is rich only few have the privilege to enjoy the richness and the blessings because of corruption,.

Your faithful prayers and offerings continue to make a profound difference by bringing practical help, hope, and the love of Jesus to all those we meet on our way.

Last night we started the 9th crusade of this season in a village where the time seems to have stopped. This village, frozen in time, will hopefully see heaven. That's why we are here!

The good news is that since the 1st time we were here, the suicides stopped. Before we came with the Gospel of Jesus Christ, this village averaged one suicide every month.

More good news is that in the beginning, only women came to the meetings while the men were busy doing evil. But now, they are men & women come to the meetings and that is a great and profound detail.
Praise the Lord.

You are a part in this good news by, walking with us as a messenger of light across these dark places.

Just as Jesus said, let your light shine in the

dark. (Mt 5:14-16) Thank you so much.

I want to express my heartfelt gratitude for your continued generosity and partnership with CITR to people across Mexico and USA.

Because of Jesus.
